

Dear

I am an acupuncture patient who lives in your district. I want to register my support for “An Act Relative to the Practice of Acupuncture” (HB566 and SB1198), and request that you cosponsor this valuable bill. I would like acupuncture to be covered by insurance so that more people in the Commonwealth can use this modality in hospitals, private offices, and clinics. Patients can reduce or eliminate their use of medications for pain, nausea, PTSD, and withdrawal from opiates with acupuncture. Please commit to supporting this bill.

Thank you,
